List	Checking To Do list and so on	To Do list
Questions	Ask Google questions	Who is the world-renowned singer ?
Sports	Providing Sports News	Sports news
Calendar	Operation of Calendar	Calendar

### Navigation Commands

The result of a navigation command to Google Assistant can differ depending on the wording of the command, even for the same destination.

The three possible outcomes are summarized below.

#### Google Assistant suggests an item from a list of destinations

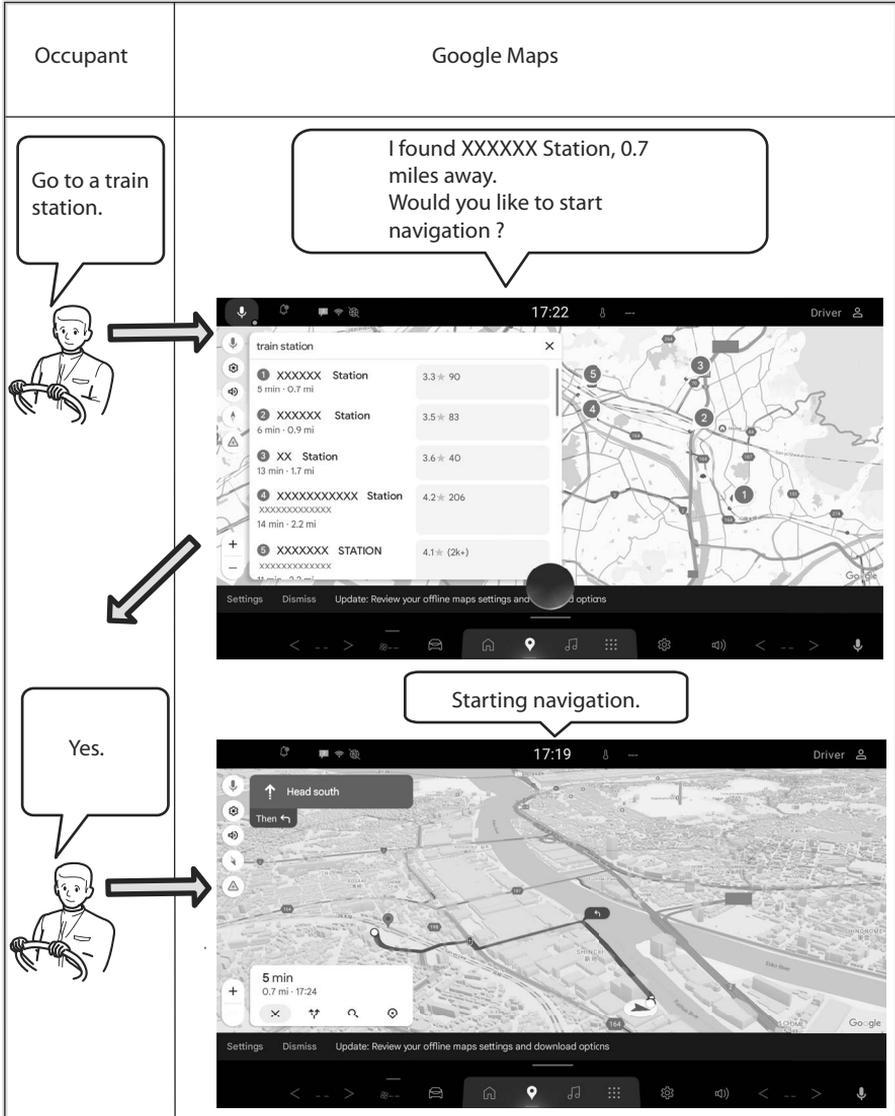

A list of relevant destinations is displayed on Google Maps and Google Assistant starts suggesting a destination from the top of the list. Replying "Yes" to this prompt starts navigation towards it, while replying "No" causes Google Assistant to suggest the next item on the list.

#### **Go to (location category/brand/location name)**

- Go to a [destination]
- Go to [destination]
- Navigate to a [destination]

◆ How to Use Google Assistant (Voice Control)

· I want to go to a [destination]

## ◆How to Use Google Assistant (Voice Control)

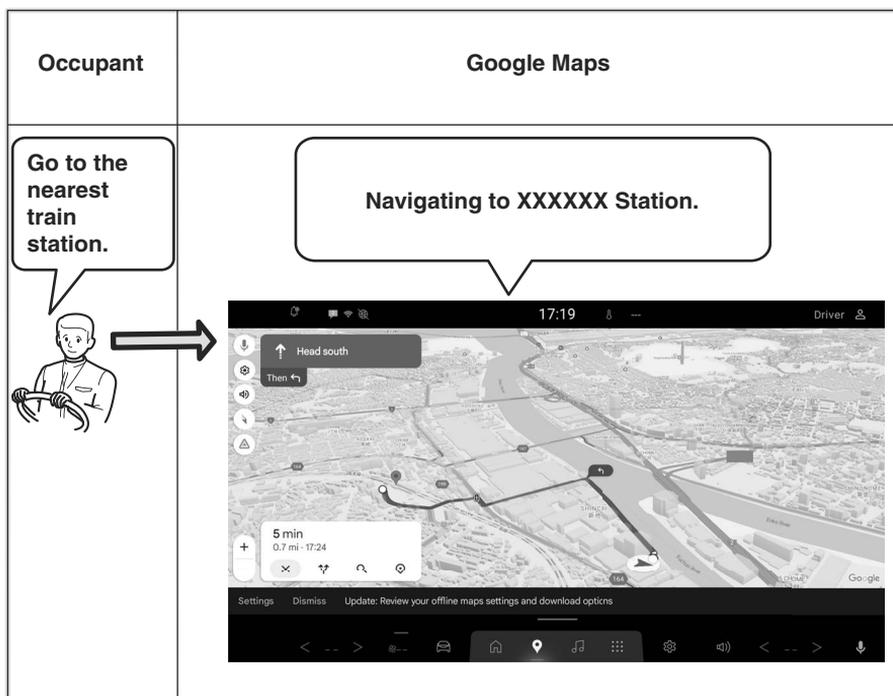

---

### Navigation towards the destination begins immediately

Google Assistant replies to the command and starts towards the destination location immediately.

#### **Go to the nearest (location category/brand/location name)**

- Go to the **nearest** [destination]
- Navigate to the **closest** [destination]
- Go to [destination name]

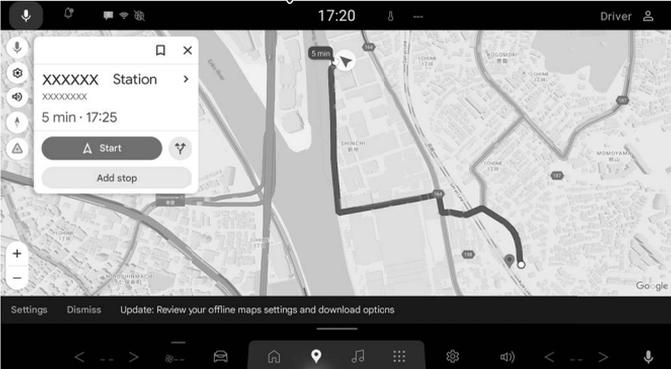

### The route towards the destination is displayed

Google Assistant replies to the command and displays a route to the destination location. Navigation can be started by operating Google Maps on the screen.

#### **I want to go to the nearest (location category/brand/location name)**

- I want to go to the **nearest** [destination]
- I want to go to [destination name]

◆ How to Use Google Assistant (Voice Control)

Occupant	Google Maps
<p>I want to go to the nearest train station.</p>  <p>→</p>	<p>XXXXXX Station is 5 minutes away in light traffic.</p> 
<p>Check the route and start the guidance.</p>  <p>→</p>	<p>Starting navigation.</p> 

**NOTE**

The illustrations are for illustrative purposes only and may differ from the actual response.

## ◆How to Use the Air Conditioner

---

### How to Use the Air Conditioner

There are 3 ways to change the air conditioning setting.

#### Method 1

Swipe up in the direction of the arrow.

The screen below appears.  
Tap any icon to configure the settings.

**Method 2**

Tap the screen to display the following screen.

Tap any icon to configure the settings.

## ◆ How to Use the Air Conditioner

---

### Method 3

Tap the screen to display the following screen.

To adjust the temperature, tap the < or > buttons, or swipe the slider.

## Odometer/Tripmeter Display

The Odometer/Tripmeter information can be checked.

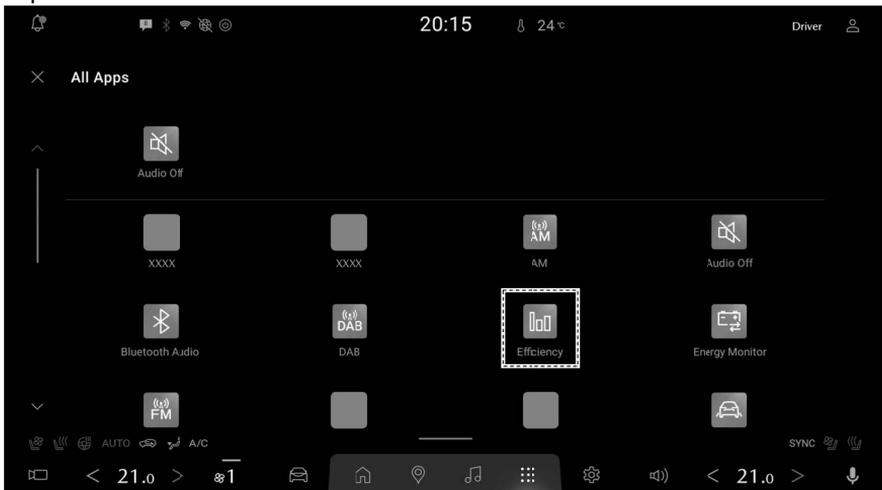

You can also customize the Home screen to display Odometer/Tripmeter Efficiency on the Home screen.

Refer to Mazda Connect Home Screen Personalization on page Mazda Connect Home Screen Personalization.

1. Tap .

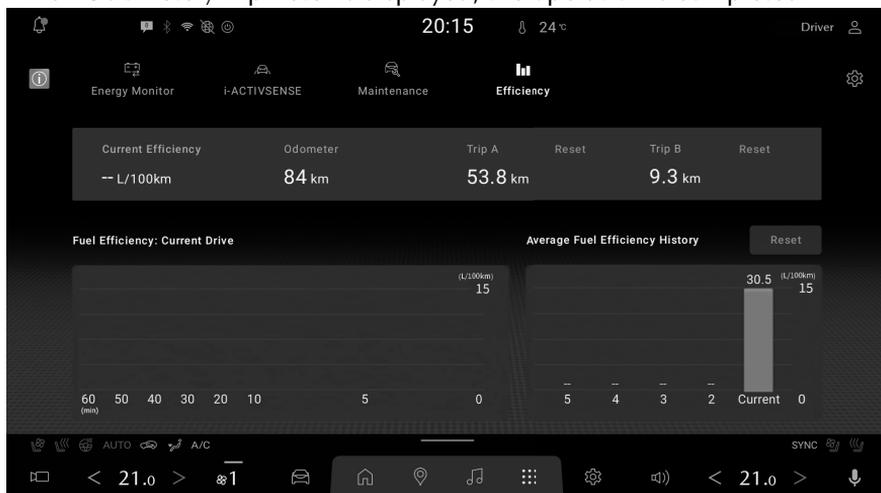

2. Tap .

## ◆Odometer/Tripmeter Display

---

3. When Odometer/Tripmeter is displayed, the operation is completed.

## Mazda Connect Home Screen Personalization

1. Tap .

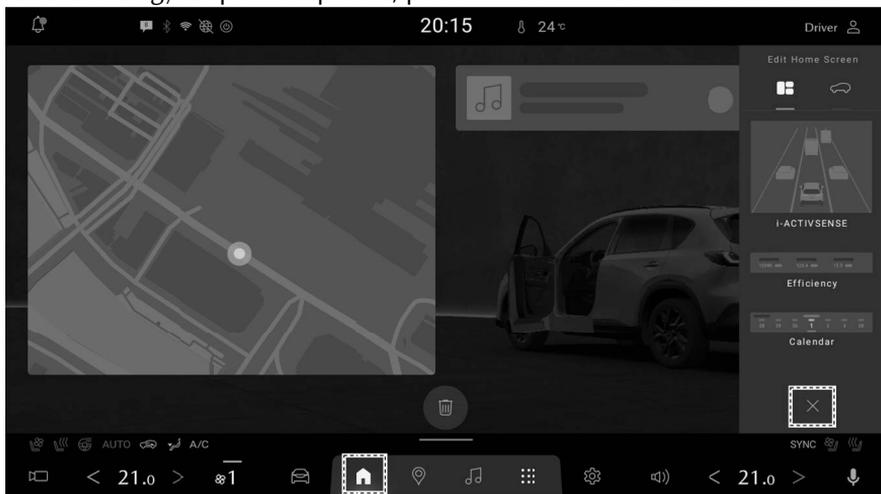

2. Press and hold an item from the list below, then drag it to freely arrange up to five items.

- 1 "Navigation" display
- 2 "Media" display
- 3 "i-ACTIVSENSE" display
- 4 "Efficiency" display
- 5 "Calendar" display

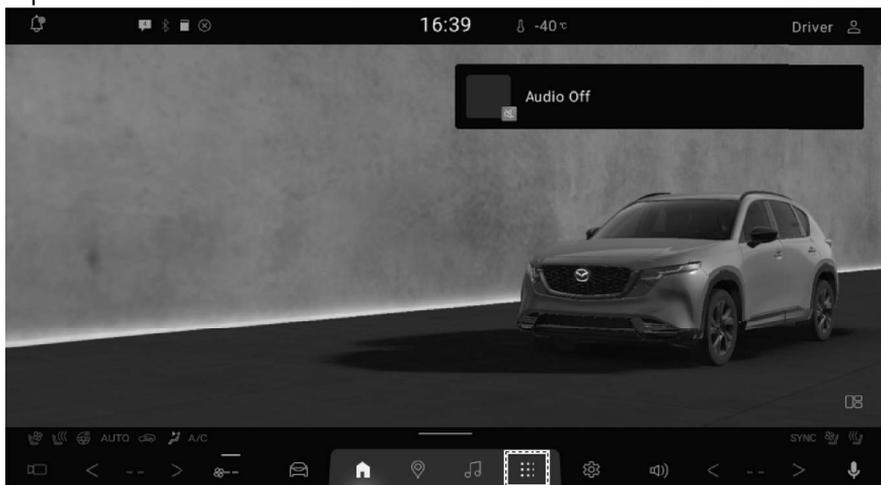

## ◆Mazda Connect Home Screen Personalization◆Notification Message Display

3. After the drag/drop is completed, press  or  to return to the home screen.

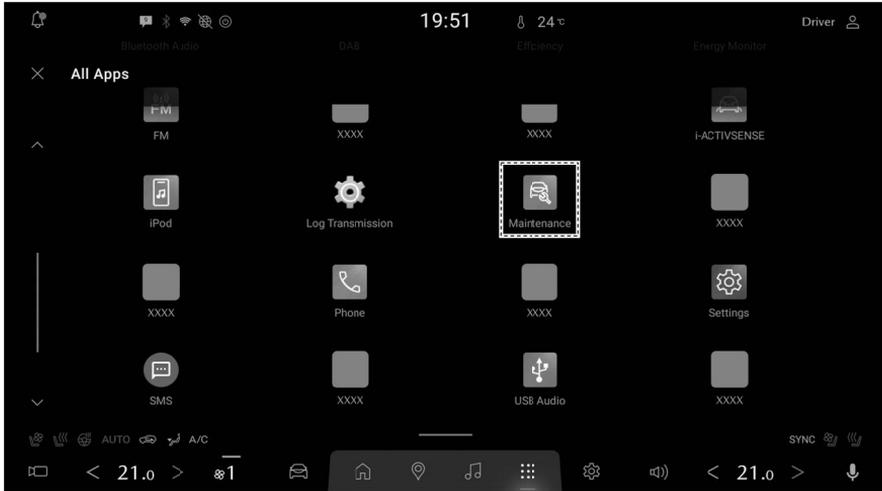

## Notification Message Display

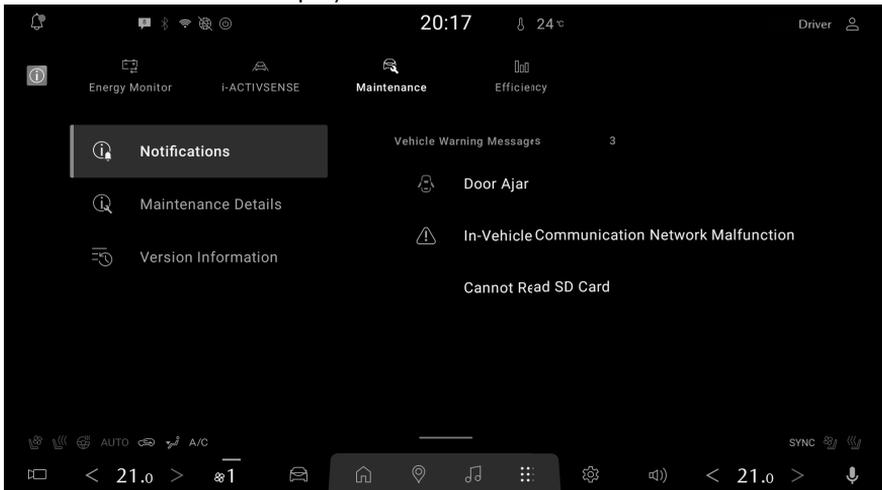

1. Tap .

2. Tap .

3. "Notifications" will be displayed.

4. Tap a notification from the displayed list to view the message details.

## ◆Driving Position Registration

---

### Driving Position Registration

1. Tap .

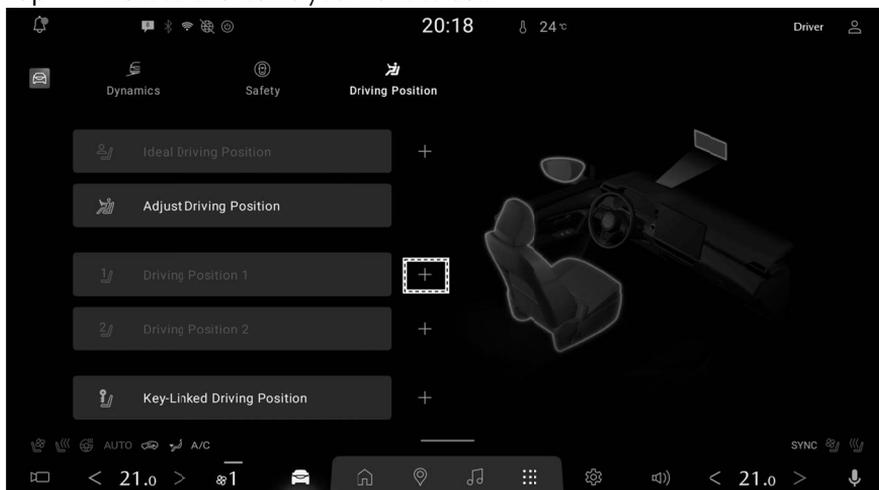

2. Tap "Driving Position".

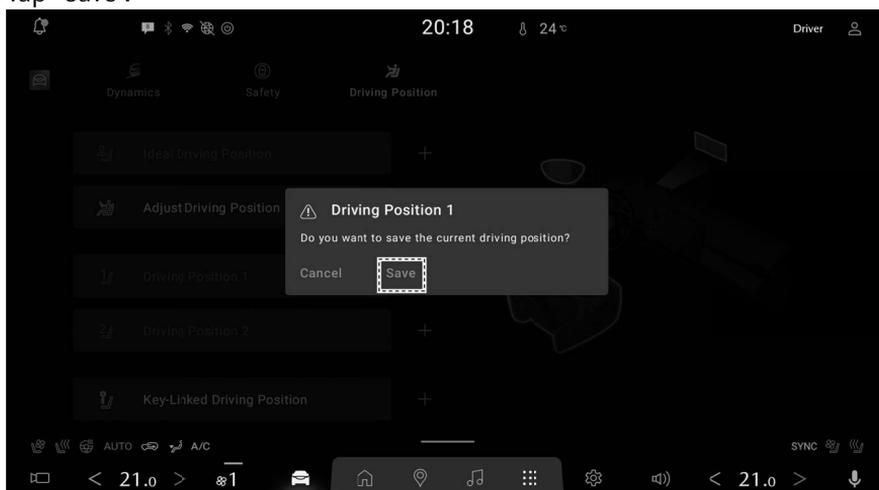

3. Adjust the following driving positions to the desired positions.

- Driver's seat
- Active driving display
- Outside mirrors

Tap **+** next to the items you want to set.

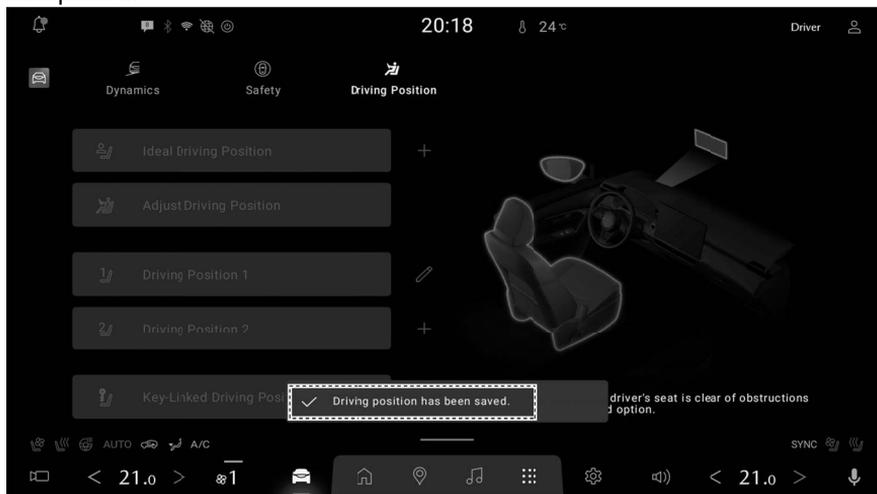

4. Tap "Save".

## ◆Driving Position Registration

---

5. When “Driving position has been saved.” is displayed, the settings are completed.

### NOTE

After setting the driving position, register the seat memory.

To delete a registered seat position, press  and select “Delete”.

## How to Mute

1. Tap .

2. Tap .

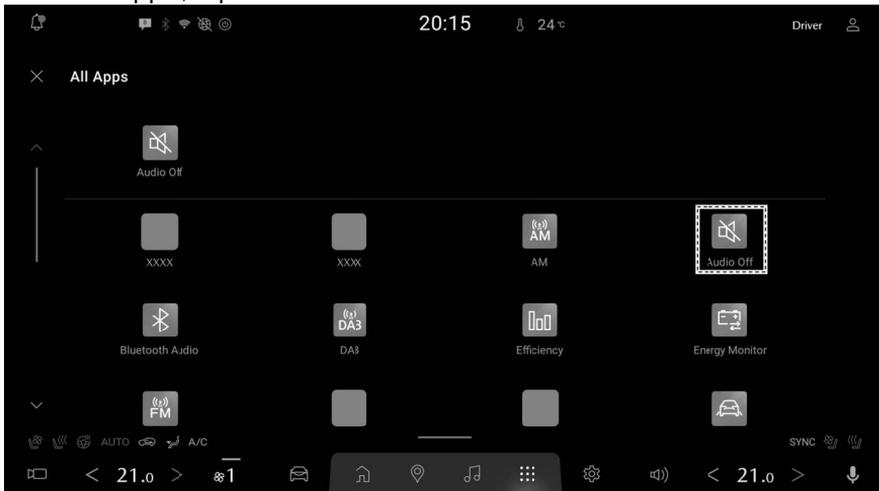

## ◆How to Mute

3. When a  is displayed, the sound is muted.

### NOTE

From "All Apps", tap "Audio Off" to turn off all media audio.

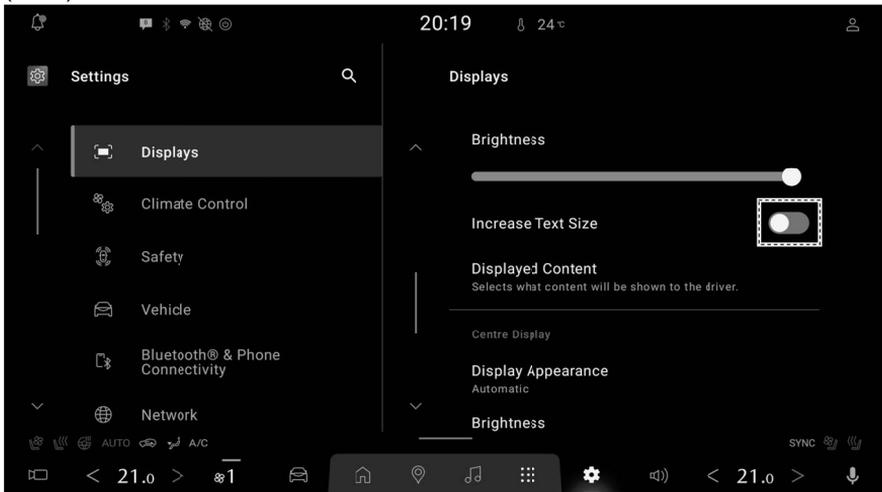

## Change Text Size of Instrument Cluster Display

1. Tap .

2. Scroll through "Displays" and turn the "Increase Text Size" toggle switch on (blue).

3. When the toggle switch is turned on (blue), the text size in the instrument cluster increases.
